PRESIDENT'S WELCOME

Dear Friends and Colleagues,

we are really delighted to present you the 16th edition of the National Congress of the Italian Skull Base Society - SIB - that will be held in Varese, University of Insubria. The title of this event will be "Multidisciplinary treatments for skull base lesions".

We believe that a multidisciplinary approach of skull base disorders is the only way to effectively manage a complex and "borderline" anatomical region such as the skull base. For this reason, the contribution of neurosurgeons, otolaryngologists, maxillofacial surgeons, ophthalmologists and plastic and reconstructive surgeons cannot leave aside the support of dedicated neuroradiologists and pathologists, as well as it must always be integrated with the new therapeutic possibilities offered by the radiation therapists and medical oncologists.

The 16th National Congress of the Italian Skull Base Society was born in this "patient-centered" multidisciplinary perspective and it will include all the leading Italian experts involved in the treatment of paranasal sinuses and anterior skull base diseases, in the orbital and transorbital approaches, in the treatment of lateral skull base pathologies, and in the management of pituitary lesions and cavernous sinus. The formula of this edition of the National Congress will be designed in order to stimulate an open discussion between different specialists, just as it happens in the multidisciplinary team meetings that we all experience in our daily clinical practice.

Following our tradition, cutting-edge experts has been invited and they will be available for open professional exchanges in all the hot topics we deal with every day.

We will also have the privilege of having with us a renowned international guest faculty such as Prof. Ricardo Carrau, The Ohio State University, USA, President of the North American Skull Base Society - NASBS - who will present a keynote Lecture on the future directions of skull base surgery. It will be a unique opportunity for professional exchanges and growth, which underlines the close collaboration between the Italian Skull Base Society, an accredited member of the European Skull Base Society - ESBS - and the American Skull Base Society.

We are actively working so that this 16th National Congress can be really useful and interesting for all of us. We are sure that it will be a valid opportunity to intensify the already started collaborations as well as to become aware of innovations offered by several Italian centers of excellence, which will further enrich our scientific and professional skills and open new treatment options for our patients.

See you in Varese in November 11th-12th 2021.

Best Regards,
Paolo Castelnuovo

SYMPOSIA offered by Industry

13.00 – 14.00 HISTORY SESSION: The Evolution of Skull Base Treatments

- ✓ The ENT perspective: **Antonio Mazzone**
- ✓ The MAX FAX perspective: **Giorgio Iannetti**
- ✓ The Neurosurgeon perspective: **Francesco Tomasello**
- ✓ The Radiation Therapist perspective: **Marco Krengli**

PERCORSO ACCREDITATO ECM

14.00 Welcome to the LIVE SESSION - President of the Italian Skull Base Society, Paolo Castelnuovo

14.15 LECTIO MAGISTRALIS: "The future of skull base surgery: where do we stand and where are we going?" **Ricardo Carrau**

14.45 – 17.00 FIRST SESSION – PITUITARY AND MIDDLE FOSSA

14.45 FOCUS LECTURE: "Sellar and parasellar approaches: what's new?" **Dharambir Sethi**

15.15 FOCUS LECTURE: "Middle Cranial Fossa Approaches: state of the art" **Paolo Cappabianca**

15.45 ROUND TABLE: EXPERT PANEL

Moderator: **Maurizio Iacoangeli**

Panelist: Frank Rikki Canevari, Luigi Cavallo, Eknath-Deopujari Chandrashekar, Davide Locatelli, Ernesto Pasquini

17.00 – 19.15 **SECOND SESSION – POSTERIOR FOSSA**

17.00 FOCUS LECTURE: “Innovations in Clival chordoma management”
Sebastien Froelich

17.30 FOCUS LECTURE: “Neurovascular conflicts in the posterior cranial fossa”
Marcos Tatagiba

18.00 ROUND TABLE: EXPERT PANEL

Moderator: **Angelo Pompucci**

Panelist: Giuseppe Catapano, Alberto Iannalfi, Laura Fariselli, Antonino Germanò, Diego Mazzatenta

19.15 **GENERAL ASSEMBLY of SIB MEMBERS and opening of online election for the renewal of the Board**

Friday, November 12th, 2021

08.30 – 10.15 **THIRD SESSION – LATERAL SKULL BASE**

08.30 **“UGO FISCH” OPENING LECTURE:** “Acoustic neuroma treatments: from tradition to modernity – critical edges” **Mario Sanna**

09.00 ROUND TABLE: EXPERT PANEL

Moderator: **Roberto Pareschi**

Panelist: Giovanni Danesi, Paolo Ferroli, Marcello Marchetti, Roberto Stefani, Barbara Masotto, Abdelkader Taibah,

10.15 – 12.00 **FOURTH SESSION – PARANASAL SINUSES, ANTERIOR SKULL BASE**

10.15 FOCUS LECTURE: “Endoscopic endonasal skull base reconstruction: from CSF-leaks to expanded approaches” **Philippe Herman**

10.45 ROUND TABLE: EXPERT PANEL

Moderator: **Piero Nicolai**

Panelist: Paolo Bossi, Paolo Battaglia, Roberto Maroldi, Ester Orlandi, Fausto Sessa

12.00- 13.45 **FIFTH SESSION – ORBIT**

12.00 FOCUS LECTURE: “360° approaches to the orbit: from tradition to innovations” **Benjamin S. Bleier**

12.30 ROUND TABLE: EXPERT PANEL

Moderator: **Paolo Castelnovo**

Panelist: Iacopo Dallan, Davide Locatelli, Enrico Sesenna, Barbara Vischioni

13.45 **Presentation of the new-elected SIB Board**

Closing remarks and greetings from the new SIB President
